Portable Appliance Test & Calibration Labels

BLUECODE manufactures many labels for the test and calibration industry. Labels can incorporate:

- Write & Seal • Sequential Numbering
- Barcode • Company Logo, etc.

Security & Tamper Proof Labels

BLUECODE manufacture tamper proof (self destruct) labels that use easy tear materials coupled with strong adhesives that cause the label to disintegrate if an attempt to remove the label is made. The label is designed to leave fragments of itself behind, preventing it from being peeled from the surface to which it is adhered to and re-applied elsewhere. EVIDENCE OF TAMPERING is obvious.

BLUECODE also manufacture labels that leave a chequer board pattern or 'VOID' message on the surface that the label is applied to. This leaves a clear indication that a label has been removed whilst also leaving a corresponding clear window on the label so it cannot be re-used and EVIDENCE OF TAMPERING is obvious.

BLUECODE is particularly versatile within the tamper proof labelling market place and can produce tamper proof labels incorporating several other features including overprinting with company name, logo, variable information, barcodes and holographic patterns.

Add promo code BCB8 to your purchase order to receive an *8% discount off your bespoke label price.

*Doesn't include tooling, artwork and P&P. New label designs only. Reverts to quotation price thereafter. Not to be used in conjunction with any other offers.

Write & Seal Labels

BLUECODE manufacture "Write & Seal" labels that allow you to write on a label with a standard ball point pen e.g. date, initials, reference, serial no. etc before peeling the backing paper and sealing with its own attached clear strip.

This protects the whole label from rubbing, abrasion, cleaning and solvents as well as ensuring the information is not changed.

Barcode / Asset Labels

BLUECODE can produce a number of labels that contain fixed or variable information barcodes which conform to accepted industry standards - Code 128, Code 39, EAN, etc. These can be sequential and/or alphanumeric and can be printed in conjunction with company name, logo & variable information.

Electrical / Warning Labels

At BLUECODE, we manufacture a range of electrical & warning labels made to each customers specific requirements.

These labels usually divulge important information eg. Danger 240V, Caution Hot Surface, Warning - Moving Parts, etc. They are usually brightly coloured, informative and are over laminated for durability in harsh environments with a wide range of adhesives to suit each application.

Blank Labels & Thermal Ribbons

BLUECODE offer a large range of blank labels & thermal transfer ribbons. Please contact us for a quotation.

Calibration

BC4020037
 SIZE: 40mm x 20mm
 PRICE: £9.36 per roll

BC3715048
 SIZE: 37mm x 15mm
 PRICE: £9.10 per roll

BC19D092
 SIZE: 19mm diameter
 PRICE: £8.91 per roll

BC19D065
 SIZE: 19mm diameter
 PRICE: £13.76 per roll

Tamper proof

Self Destruct White Vinyl
BS19D029
 SIZE: 19mm diameter
 PRICE: £13.76 per roll

Silver Void Polyester
BS25D082
 SIZE: 25mm diameter
 PRICE: £18.13 per roll

White Void Polyester
BS34D083
 SIZE: 34mm diameter
 PRICE: £20.78 per roll

Self Destruct White Vinyl
BS4020033
 SIZE: 40mm x 20mm
 PRICE: £18.08 per roll

Silver Void Polyester
BS4020090
 SIZE: 40mm x 20mm
 PRICE: £18.08 per roll

White Void Polyester
BS4020085
 SIZE: 40mm x 20mm
 PRICE: £18.08 per roll

PAT Test

BT4520040
 SIZE: 45mm x 20mm
 PRICE: £9.36 per roll

BT4040042
 SIZE: 40mm x 40mm
 PRICE: £10.26 per roll

Asset

BA5025054
 SIZE: 50mm x 25mm
 PRICE: £13.56 per roll

Asset numbers supplied are the next in the sequence at the time of order.

All above standard labels are supplied in rolls of 250
